What is Slidev?

Slidev is a slides maker and presenter designed for developers `devs`, consist of the following features

-  **Text-based** - focus on the content with Markdown, and then style them later
-  **Themable** - theme can be shared and used with npm packages
-  **Developer Friendly** - code highlighting, live coding with autocompletion
-  **Interactive** - embedding Vue components to enhance your expressions
-  **Recording** - built-in recording and camera view
-  **Portable** - export into PDF, PNGs, or even a hostable SPA
-  **Hackable** - anything possible on a webpage

Code

Use code snippets and get the highlighting directly!

```
<script setup>
import { TresCanvas } from '@tresjs/core'
</script>

<template>
  <TresCanvas
    clear-color="#82DBC5"
    window-size
  >
    <TresPerspectiveCamera />
    <TresMesh
      @click="onClick"
    >
      <TresBoxGeometry :args="[1, 1, 1]" />
      <TresMeshNormalMaterial />
    </TresMesh>
  </TresCanvas>
</template>
```

VUEJS AMSTERDAM

@alvarosabu

Awiwiïw

```
// Model.vue
<script setup lang="ts">
import { useAnimations, useGLTF } from '@tresjs/core'

const { scene, model, animations } = await useGLTF(
  'models/ugly-bunny.gltf',
)

const { actions, mixer } = useAnimations(animations)
const currentAction = ref(actions.Greeting)
currentAction.value.play()
</script>

<template>
  <primitive :object="model" />
</template>
```

```
<template>
  <TresCanvas
    clear-color="#82DBC5"
    window-size
  >
    <TresPerspectiveCamera />
    <Suspense>
      <Model />
    </Suspense>
  </TresCanvas>
</template>
```

VUEJS AMSTERDAM

Consoles

Use code snippets and get the highlighting directly into a nice looking window!

```
// main.ts

import { createApp } from 'vue'
import { createDynamicForms } from '@asigloo/vue-dynamic-forms'

const VueDynamicForms = createDynamicForms({
    // Global Options go here
})

export const app = createApp(App)
app.use(VueDynamicForms)
```

Embedded stuff

Use window to show a live demo of any page, or even a sub component!
